In God is my salvation and my glory: the rock of my strength, and my refuge, is in God.—(Psalm 62:7)

Let us then daily affirm—not once but continually—that the only true and lasting happiness on earth is to be found in God and in serving Him; that in Him alone can we find the strength to bear life's inevitable sorrow and adversity; that in Him alone is the joyous peace we all seek.

THANK YOU

We would like to be able to visit each one for their kindness expressed to us since our daughter was in a car wreck on August 27th. to thank each one but that would be impossible. We only want each and every one to know how much each phone call to the hospital, our home and parents homes asking about her meant. It will always be remembered and we do appreciate it so very much. We would like to thank her pastor and other churches for their prayers. Also for the visits, cards and gifts. We would also like to thank the drivers and assitance of Robinson's for their polite and confident service and to everyone in their assistance at the time of the wreck. These services of all will always be remembered and appreciated.

Shearer & Catherine Robertson

MOST FREQUENTLY taught of all non-military defense courses is Radiological Monitoring for Instructors. It is designed to teach technically-qualified adults how to instruct others to detect and measure radioactive fallout which would be spread by wind after a nuclear attack. The training course is stressed because, unlike most other fields, the radiological expert has few counterparts in ordinary civilian life who could be called upon in an emergency. Classes are taught at the Western Instructor Training Center (shown here) in Alameda, Calif.; the Eastern Instructor Training Center at Brooklyn, N. Y., and the Chemical Biological-Radiological Defense School in Battle Creek, Mich. (OCDM Photo)

A New Season Turns on The Green Light In A Growing Town

A Growing Community Must LOOK AHEAD and be dynamic...be on the alert for every opportunity to serve its welcomed friends.

Appomattox has expanded rapidly in recent years. Our payrolls have increased. The number of business establishments has grown. Existing businesses and institutions have grown with the community and area.

A typical example is the vastly increased number of telephones in the area, a testimony to independent enterprise.

Another example is the solid growth shown by local banks. Our community is indeed fortunate to have such sound banks.

Look over the sponsors on this page, and in each and every case, you will then be proud that you have witnessed the steady business growth of this community. Look what our construction and building supply companies have done! And we should be proud of our Department Stores, our outstanding agencies for sales of new and used cars, our excellent service stations, our hardware and farmer's supply establishments, our restaurants, and market for timber and wood products, our splendid Funeral Home and Ambulance Service.

Behind this line of thought is the fact that the Fall Season is now upon us. For months, our business places have been preparing for this Season. We have looked around, and we can truly say that the Fall Season of 1960 should be one of the best in our long history as an historic community. You will find it to your advantage to Trade in Appomattox.....to gain the acquaintance of our business people....to associate yourself with the firms and institutions which make our schools and churches and clubs and entire community life possible. We are sincere in saying that your home-town business merits your support, and we ask that support in the conviction that it is to your personal advantage to Grow with Growing Appomattox. Let's make Our Town The Best!
